MEMORANDUM FOR: [REDACTED]

25X1A9a

SUBJECT : CT History

1. I have been through the shelf lists of the OTR vital records, and I find that considerable material is available if needed. For example, it is possible to get weekly reports dating back to the time Matt Baird came in to OTR. Minutes of Career Board Meetings are also available, and I find that there are several boxes containing matters pertaining to JOTs. I propose to screen this material myself to locate significant items. However, if you will let me know what particular documents you would like to start with, I will see if I can get them for you. I am also including a few pages retrieved from some attempts at history written to cover the period 1950 - 1953.

2. I would suggest that you outline how you propose to deal with this subject and that we then talk about it.
